CHINA SPRING - Mrs. C. B. Gilbert.

WOLFFORTH - Boyd Rice.

CALIFORNIA - Oscar Oliver, and House of King.

LOUISIANA - J. K. Elliott.

## Low Interest Loan Program Canceled

A federal program which enabled rural low income families in Central Texas to buy homes has been canceled "until further notice" by the Nixon Administration.

More homes probably would have been bought by Milam Countians during 1973 if the Farmers Home Administration's interest credit loan program had not been shelved, Henry Ivey, county FHA supervisor said last week.

Hardest hit by loss of the program are predominately rural counties such as Falls and Milam.

Ivey said his office had approved 31 interest credit loans since January 1, 1972.

"Fifteen of these families definitely couldn't buy any kind of house without an interest credit loan," Ivey said. He said the others either would have had to buy a less expensive house or none at all without interest credit loans.

Under the program, families with annual incomes of less than \$7,000 may borrow money to buy homes through FHA at reduced interest rates, some as low as one percent.

This program was canceled as part of President Nixon's budget-cutting program. Also canceled were:

--Loans and grants to build farm labor housing facilities.

--Rental and cooperative housing loans.

## Trustees Plan Bond Issue

### \$885,000 Issue Marks Review Of First Plan

Cameron school trustees are making plans to call another bond election in the near future, following decision made at a called school board meeting Thursday evening.

The issue will be for \$885,000, some \$340,000 less than the first proposal voted down in October of 1972. That proposal was for \$1,250,000 and called for an extensive building and remodeling program plus air conditioning of classrooms.

The new proposal has the "bare bones" of the first program, and includes:

--Construction of an ag addition, new classrooms at Yoe High and Ben Milam, renovation of restrooms at Ada Henderson and Yoe High; --Equipment and furniture for the new additions, including lab equipment; --Construction of a new physical education plant.

Totals for these would be some \$748,450, with \$74,845 added for contingencies and escalation and \$61,705 for professional fees for a total of \$885,000.

D. D. Matthews, school architect from Bryan, met with the trustees Thursday and presented the program. His first proposal was for \$950,000, and was substantially the same project as the first bond issue, but without the outside skin for buildings are covered walkways. Trustees, after a long discussion, decided this figure was too high to assure success for the bond issue, and Matthews reviewed the plans and came up with the \$885,000 program.

The new program also leaves out renovation of the present gym, renovation of Yoe High School and Ada Henderson classrooms, and presents a reduced cost on the new physical education plant.

In other business, the board authorized Supt. D. R. Dodson to purchase a second-hand fire escape from the Rosebud High School for installation at Ada Henderson School.

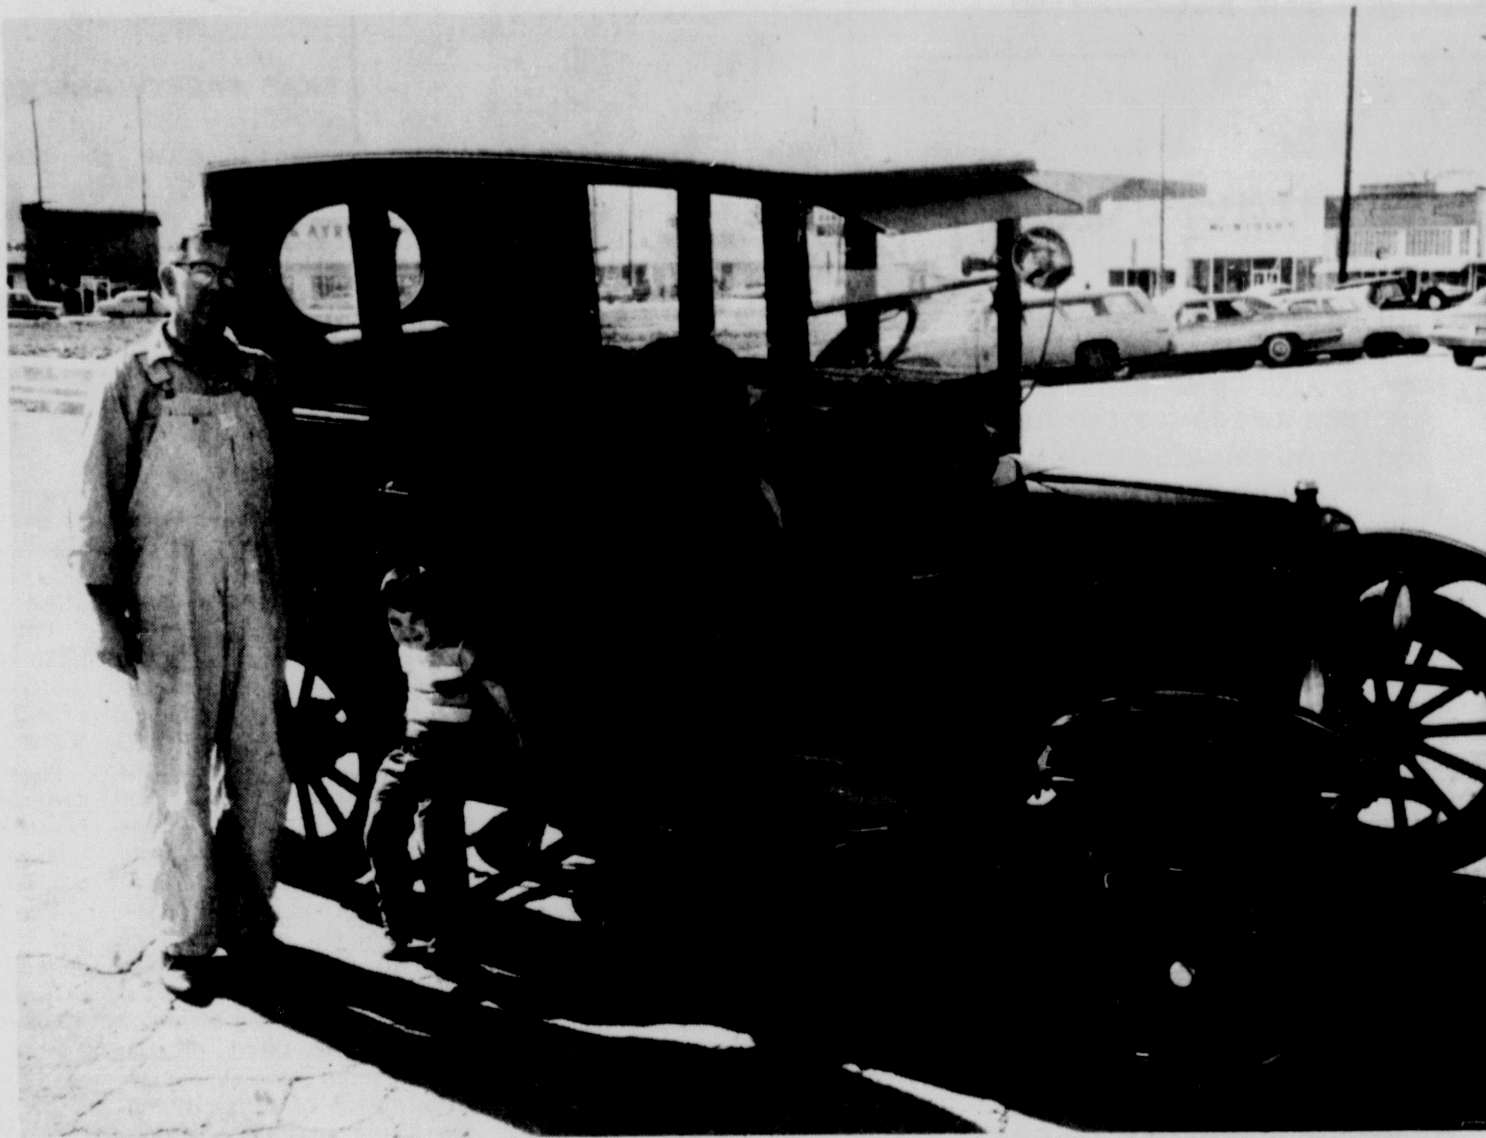

They also hired Miss Lynn Gaddis as a homemaking teacher.

The annual trustee election was set for Saturday, April 7, and the next month's meeting was set for Wednesday, February 7 at 8 p.m.

## Marching Mothers Needed For Drive

Volunteer marchers and drivers are being sought for the Mothers' March of Dimes. All volunteers, adult and teenagers, are asked to meet Tuesday, January 30 at 6 p.m. in the fire station meeting room.

Chairman for the mothers march is Mrs. Florence Mussner.

ANTIQUE MODEL T is proudly displayed by Marion Morris, now of Amarillo and moving to Marakville to join his wife. The 1922 center door sedan has the original upholstery and features doors in the center of the body that lets passengers

into the back or front of the 51-year-old auto. It runs like a top, and was painted by Morris, and antique auto collector. He also is the owner of two "Moons" one of which was owned by Babe Ruth.

## Area Roundup

### Deer Season Termed Good

GEORGETOWN  
The deer season's hunting tally for Williamson County shows it was a good season with the kill reportedly at 2,000 to 2,500 deer. This estimate includes both bucks and does. The heaviest buck killed was about 119 pounds. There were no fatalities reported this year from deer hunting, although there were accidents during the dove season.

### Gas Curtailment Lifted

ROCKDALE  
A 100 percent natural gas curtailment at Alcoa's Rockdale Works was lifted by the supplier, Lone Star Gas Co. The plant gas supply was curtailed 75 percent January 8 and entirely the following day, forcing limited operations in the smelter's re-draw rod mill, ingot plant, carbon plant and atomizer.

### Belton Journal Sold

BELTON  
James H. Russell and Larry W. Ingram announce the change in ownership of the 106-year-old Belton Journal, effective March 1. Ingram has purchased the weekly newspaper, established in 1866, and the job printing plant, from Russell and plans to continue publication of the paper. The Journal is one of the oldest newspapers in continuous publication in Texas.

### Council Studies Fuel Problem

HEARNE  
The Hearne City Council adopted a "wait and see" attitude on a matter described as critical at their Monday night meeting. The proposal was that Hearne join in an agreement with Bryan in the acquisition of storage tanks that would allow the two cities to buy diesel fuel during the summer months when it could be purchased for about 10 cents a gallon. The suggestion was put forth following recent curtailment of natural gas and further anticipated curtailments of fuel.

### Waco District Views School Lines

WACO  
A new boundary line study aimed at giving residents of the Waco Independent School District the right to plan where they will attend school may be in order, Supt. Avery Downing said at a meeting of the school board. The way it is now, Downing said, too many students living in the district don't have a set idea as to where they will complete their public education. "The fact that we have been struggling for one and a half years with senior high school attendance zones makes me wonder if we should not begin a new study of the question," he said.

### Cities May Use Incinerators

TEMPLE  
Interest was shown by officials of cities in Bell County to a proposal by County Judge Harold Harris that solid waste disposal be by incineration instead of landfill operations as are now being used. Belton, Troy and Morgan's Point officials said they are receptive to the idea of incinerators now. Temple's Mayor Jamie Clements said he could not commit the city program at this time but believes Temple in the future will have to go this route.

## Institute Of Texan Cultures

### To Host Fete

Texans had such a good time at their own party last year that the Institute of Texan Cultures will host a second statewide Texas Folklife Festival September 6-9, 1973, it was announced today by Executive Director R. Henderson Shuffler.

The four-day celebration will feature the traditional foods, music, dances, arts, crafts, games and contests of all the many kinds of Texans.

The German Dancers from Cameron helped provide entertainment at the Festival last year.

O. T. Baker, ITC Projects Manager, will again be manager of the fete. His two chief goals for the 1973 festival are to maintain an atmosphere of family fun and to encourage greater visitor participation.

In the first year 63,565 attended the state's biggest party and 2,163 people from 102 Texas towns staffed the festival.

Since that time, people from all over the state have urged the institute to repeat the event, which was designed to show everyone how Texans of all races and national origins have fun.

Organized and operated by the Institute, the second Texas Folklife Festival will be supported by pledges of aid-in-service from a number of state and local organizations.

The San Antonio Hotel Association, according to president Bill Hunter, will again support the festival by contributing rooms for out-of-town participants.

The Institute of Texan Cultures, the producer of the Folklife Festival, is part of the University of Texas System. Its purpose is to tell the history of the state through the stories of the various ethnic groups who reside here and the festival is a natural outgrowth of the Institute's study of our cultural heritage.

"No matter how different or divergent our ancestry, we are all Texans, with a common bond in our past and common stake in our future," concluded Shuffler. "This is all the Institute of Texan Cultures ever had to say, and the Texas Folklife Festival seems to be a good way to say it."

## Prices, Numbers Rise At Livestock Auction

A big cattle run with soaring prices marked Thursday's auction scene at the Cameron Livestock Auction. A large number of hogs had to be turned away because of lack of space and time, according to auction barn officials.

Receipts totaled 2200 at the auction barn Thursday, half cattle and half hogs. According to market reports, feeder steers, heifers and calves were \$2 to \$4 higher than last week's prices. The demand was good, with the run including around 5 percent slaughter cows and the bulk of the supply mostly feeders.

Feeder cattle made the biggest splash, with choice 250-300 pound steers bringing \$67 to \$71 at the

sale. This compares to prices of a year ago which were \$36.40 to \$39.25.

All classes of cattle and calves were up, with hog prices slipping a little from recent weeks. A peak in hog prices was seen earlier in the season and US No. 1-2 barrows and gilts were selling at \$32.10 to \$32.70 Thursday compared to \$27.10 and \$27.70 a year ago.

Choice stock cows also rose from \$23.75 and \$26.50 last year to \$35 to \$40.50 Thursday.

The sharp, steady rise in prices is mostly caused by drastically rising feed prices and shortage of cattle in the state. The severe temperatures of this winter have caused some losses in West Texas feedlots, and also caused weight losses on most cattle in the state.

The high feed prices are now being reflected in the price of cattle, Bill McCutchen, Milam County Agent said. He said the cattle supply is down and the laws of supply and demand are applying in this case to drive cattle prices up. These increases will surely be followed by sharp increases in the price of meat to the consumer.

McCutchen said hog prices recently have been "some of the best we have had lately."

## NEW OIL WELL SCHEDULED

By Lloyd Albertson

Milam County, which has had no oil drilling activity since September, had a new wildcat scheduled for the Cherokee Navarro Field area last week by a Houston company.

Acco Oil & Gas Company of Houston has made application to drill the wildcat, its No. 1 Grady Nelson. Location is on a 46.66 acre lease in Lewis Wells Survey about three miles east of Milano. It is approximately one and one-third miles northeast of the Cherokee Navarro Field.

Acco's wildcat is permitted to 3,500 feet and apparently has the Navarro as its objective. Drillsite is 2,400 feet northeast of the Byron Rose No. 1 Henry Woods, a good producer which was brought in about two years ago.

Records show that Acco Oil & Gas originally scheduled the No. 1 Nelson in July, 1971, as one of two wildcats to be drilled in Milam County but it remained a location until last week when the company made application to drill.

Acco did drill the other wildcat, their No. 1F, Cotton without delay. This test was located on a 105.8 acre lease in Lewis Wells Survey; it was spudded on July 22, 1971, and drilled to 3,180 feet total depth. Reportedly a log that was run on the wildcat indicated good shows in the Navarro zone around 3,100 and 3,180 feet, but apparently it could not be completed as a producer.

YARD OF THE MONTH - Oxsheer Smith accepts the Fleur de Lis Garden Club 'Yard of the Month' award at his residence, 902 Jackson. Selection of the yard to be honored is based on neatness, color and landscape design.

## Contemporary Documentation

Wisely enough, Texas voters approved a proposal for a constitutional convention next year, and they voted also for creation of a special pre-convention study commission.

The Texas Legislature would sit as the 1974 constitutional convention, but the additional pre-convention study group would be appointed outside elective office.

This is good. Another proposal now before the House Rules Committee recommends a 35-member panel for pre-convention study, getting \$30 instead of \$100 per day, the membership appointed by elected officials governor through chief justice.

Were the Legislature to sit as a constitutional convention, they would only reflect the vote which put them in office, which likely would have lesser value on qualification to draw up such a major document as a new state constitution.

The pre-convention study group can devote full time for perhaps a year to analyze needs for the future and avoid the amendable nature of any new state constitution. And they can be more reflective on the basic nature of the instrument than were the creators of the post-Reconstruction document which has required so many amendments to survive its post-Civil War outline.

Gov. Dolph Briscoe says he wants to make state government efficient and effective and out-going Gov. Preston Smith held aloft 11 in-depth studies of government for the future that Texas must anticipate.

Either aspiration would be futile without a Texas Constitution at least oriented in the latter-20th Century and poised in substance for the needs of the 21st.

Our Texas Constitution needs the strength of anticipation based on the best contemporary documentation.

## Quality Needs Equal...

The quality of entries at the recent Milam Junior Livestock Auction speaks well for the kind of stock raised in Milam County.

The combination of beef, dairy and swine production sales in Milam County produces about 45 percent of gross agriculture dollars here.

So it is not difficult to understand this quality in training for youngsters and the quantity of influence this output has on the Milam economy.

The annual show is worth the effort. But isn't it a shame we don't have a real show place to equal the quality of this show?

## Bacteria Used To Help Prevent Rhine Pollution

By Klaus Jonas

BONN

Two big West German chemical companies on the River Rhine have enlisted an invisible army of thousands of millions of bacteria to help prevent the slow death by pollution of Europe's largest and best-known waterway.

Cultivated in large basins, the bacteria are fed daily with masses of polluted effluents. They gobble up the pollutants, digest them and transform them into sludge which settles at the bottom of a clearing basin.

The cleansed effluents then are led into the Rhine without posing a danger to fish or the drinking water, which some 20 million people take after chemical processing - from the river. The effluent-cleaning complex at Dormagen between Cologne and Duesseldorf is one of the preventive measures taken by the Bayer and British Petroleum, to help keep the river alive.

A group of international scientists and politicians, travelling down the Rhine from Basle to Rotterdam

for a first hand look at the pollution problem, recently termed the river Europe's "Largest Sewer."

The group warned that the water in parts of the 825 mile long river is on the verge of clinical death because fish and aquatic life vital to regeneration are being killed off by pollution.

The Dormagen plant is the biggest of its kind in Europe with the capacity for cleaning the effluents of a big city such as Munich with 1.3 million inhabitants.

It cost seven million marks (about 2.2 million dollars) annually to maintain and took years of tedious experimentation, company officials said, because of the diversity of pollutants from the areas of petrochemistry, synthetic rubber and fibers and plastics.

Biological cleaning, which technicians copied from nature, is the last step of processing after neutralization and mechanical pre-cleaning of the effluents has taken place.

In the biological process, thousands of millions of bacteria are being "fed" with

the organic contents of the effluents, which they absorb as food to produce energy and build up new cell substance.

To create ideal conditions for the "micro-workers," mixers and a grid of 2,000 jets blow 85 tons of oxygen a day into the basin.

After 10 hours of work, which transforms the bacteria into a thick, brown and somewhat foamy sludge, the effluents run onto post-sludge settling basins where the sludge settles within a few hours.

The remaining clean water then is led into the Rhine and the sludge is heated, dried and moved away.

Company officials said they hope to increase the capacity of the 8.4 million dollar plant to some 100,000 cubic yards a day.

### SUN ENERGY

The sun pours onto the earth 100,000 times as much energy as the world's present electric power capacity, the National Geographic reports.

## Open Meetings 1st In House

### Dateline Austin

By Bill Boykin

Legislation to strengthen the open meetings law cleared the House State Affairs Committee promptly and landed as the first bill on the House calendar Monday.

The measure by Rep. Carl Parker of Port Arthur would delete from present law and exemption for conferences among staff members of a governmental body. It would also remove authority for the governing body to hold closed discussions with its attorney unless ethical obligations of the lawyer are involved.

The bill, backed by Speaker Price Daniel Jr., would further increase the violation penalty to \$100-to-\$500 fine or imprisonment in county jail for a month to six months, or both.

A measure to guarantee access to public records was detoured to sub-committee.

### GOVERNOR ANNOUNCES

New Gov. Dolph Briscoe swept into office last week laying down a wide-ranging program to the Legislature his second day on the job.

Briscoe emphasized the need for cooperation with legislators and other officials and said he intends to be "the most persistent lobbyist" lawmakers will see this year.

Tone of the Governor's inaugural address and initial legislative message (several supplements are promised to fill in specific details) appeared to impress legislators favorably.

Most criticism centered on Briscoe's get-tough law enforcement program which includes restoring the death penalty for murder of policemen or firemen, legalization of wiretapping as permitted under federal law and admission of oral confessions in criminal trials.

Briscoe's assertion that lowering of first offense marijuana possession penalties to misdemeanor status should await general revision of drug laws also brought some complaints. He planned to present his narcotics law revision to the Legislature this week.

Among the Governor's priority proposals:

Strengthening the lobby registration act and adoption of a new code of ethics, early creation of a constitutional revision commission, penal code revision, laws to curb "fences" of stolen property and give courts power to deny bail to dangerous offenders, requiring convicts to serve more of their sentences before becoming eligible for parole, more emphasis on vocational education and a requirement that spending bills be accompanied with long-range cost estimates.

**SENATE RULES ADOPTED**  
Lt. Gov. Bill Hobby easily won his first big test of authority in the Senate when rules he favored were adopted 24-6.

One of the most significant rules for Hobby restored his power to appoint all Senate committees. A change adopted last September fixed appointments on the basis of seniority, leaving the lieutenant governor au-

thority only to fill vacancies.

Another alteration in which newspaper executive Hobby had a strong interest will require Senators to vote in open meeting on confirmation of appointments by the governor. They will still debate qualifications and character of appointees in closed sessions unless two-thirds of Senators vote otherwise.

Still another change in the rulebook will make it more difficult to resurrect bills on "minority reports" which been "killed" in committee earlier. Two-thirds of the Senate must vote to permit substitution of minority reports for majority reports of committees. Hobby broke a 15-15 tie in favor of the two-thirds rule.

The Senate rejected amendments to permit shutting off filibusters after 24 hours, to permit Senators to elect their own committees and to throw debate on appointments wide open. They also turned down by a close margin an amendment to retain executive sessions for voting on appointments.

### COMMITTEES NAMED

Hobby named veteran Senators to head Senate committees, but he gave vice-chairmanships and sub-committee chairmanships to freshmen.

Chairmanship assignments are: Administration - Sen. Jack Hightower of Vernon; Economic Development - Sen. Tom Creighton of Mineral Wells; Intergovernmental Relations - Sen. Jim Wallace of Houston; Education - Sen. Oscar Mauzy of Dallas; Finance - Sen. A. M. Aikin of Paris; Jurisprudence - Sen. Charles Herrington of Austin; Human Resources - Sen. Chet Brooks of Pasadena; State Affairs - Sen. Bill Moore of Bryan; and Natural Resources - Sen. Max Sherman of Amarillo.

### APPOINTMENTS

Governor Briscoe named Mark W. White Jr., 33, a Houston lawyer, as his Secretary of State, ending wide speculation.

Just before he left office, former Gov. Preston Smith named the new Texas Off-shore Terminal Commission to plan a superport. Members are Joe Albritton of Houston, chairman; Floyd L. Dellinger of Sugarland; R. H. Pruett of Baytown; Sherman S. Fricks of Deer Park; George R. Brown of Houston; Pete Miller of Galveston; H. H. Reynolds of Beaumont; Cap. William F. Fredeman of Port Arthur and P. Burgess Griesenbeck of Austin.

Smith also named V. F. (Doc) Neuhaus of Mission to the North Texas University Board of Regents and Thomas F. Jenkins of Winnie and Dr. Frank L. Jennings (reappointment) to the Gulf Coast Waste Disposal Authority.

**WELFARE LAW COST TOLD**  
New Federal legislation may cost Texas another \$66 million in fiscal 1975, a special study committee reported.

Findings indicate government will pay cost of adult

welfare recipients, but relaxed eligibility for medical care more than offsets state savings.

The committee estimated adult caseloads will more than double under the federal program.

### NEW PLANTS INCREASE

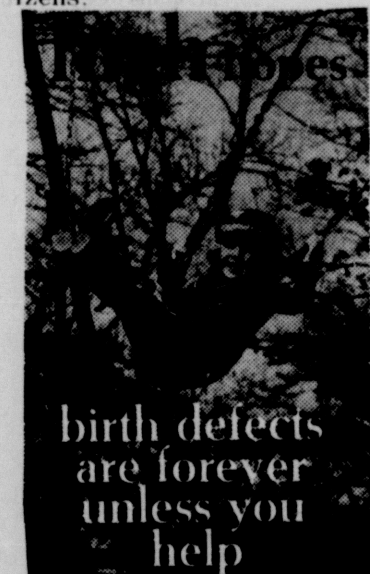

New plant locations in Texas rose last year to a near record total of 355, Texas Industrial Commission reported.

The total was 56 short of the 1969 record and was the second best in history.

Industrial expansions last year came to 316, up from 225 in 1971, but still short of the 1969 total of 505.

**SHORT SNOTS**  
Big city school district enrollment has declined slightly.

Texas Supreme Court held illegal aliens from Mexico can collect job injury benefits just like U. S. citizens.

birth defects are forever unless you help  
give to the March of Dimes

## Japanese Using New Insecticide

By Toshio Kojima

TOKYO

Japanese farmers are being persuaded to switch to pollution-free insecticides using electrons (negative electricity) instead of conventional chemicals.

Until now, they have been spending about 100,000 million yen (about 44 million dollars) annually on chemical means of killing insects preying on crops and farm animals.

But research in recent years has shown that some chemicals cause more problems than they solve by creating additional pollution, killing innocent animals, birds, fish and insects and even having undesirable side-effects on humans.

The government last year tightened the agricultural chemical control law, banning chemicals which were found to have been absorbed into the human body through eating contaminated fish, for example.

The new electron method was developed five years ago by a private research institute, which now claims 10,000 converts among Japan's five million farmers, with more switching all the time.

Oxidization is a constant chemical process that occurs in all substances exposed to the oxygen in the air and the result is loss of negative electricity from the atom that starts the process. A typical example of oxidization is rust forming on metal.

The new electron insecticide deprives insects of oxygen by using either carbon or an electron-generating device.

A spokesman for the Electronic Agricultural Development Central Research Institute said, "Mosquito Larvae, for example, only hatch in water containing oxygen and flies are attracted to an oxidizing environment."

"Oxidized soil contracts the roots or plants and affects seeds so that they have difficulty absorbing water and nourishment. This not only reduces growth, but the weakened plants have less power to resist disease and insects."

In livestock breeding, the spokesman said, oxidization helps decompose animal wastes and thereby creates the typical farmyard stench and acts as comfortable breeding grounds for insects.

Carbon, however, is a most efficient de-oxidizer. The chemical in stick or powder form is mixed with the soil or scattered on the concrete floor of livestock pens, he said.

The institute said plants and animals can be sprayed with electron-charged water, easily made by putting the new device into a water tank.

Researchers recommend daily spraying, although once a week is sufficient, while

cattle stand on an insulated platform.

Seeds and feedstuff can be charged with negative electricity in insulated containers.

At a recent national farmers convention, good results were reported using the new method.

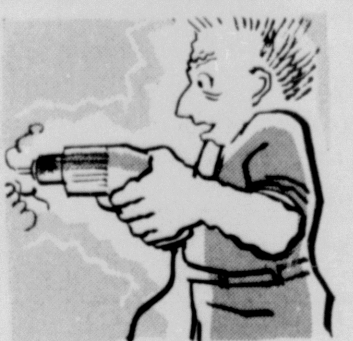

Rice farmers said crop yield was up 10 to 20 per cent and vegetable and fruit farmers reported a 30 to 50 per cent increase in production.

### Lending Your Tools

Friendly Freddie had no qualms about lending an electric drill to his next door neighbor. But trouble followed fast. While the neighbor was using the drill, he suffered a bad shock. And he put the blame squarely on Freddie.

Suing later for damages, the neighbor said Freddie had no business lending him a tool that was dangerous. But Freddie convinced the court that he had been totally unaware of any defect in the drill.

Accordingly, the court held him not liable. The judge said that, inasmuch as Freddie was lending the drill "for free," he should not bear a heavy responsibility for its safety.

Most courts are reluctant to impose liability on the person who is generous enough to lend his tools or equipment. Still, if he actually knows of some hazard, he is usually obliged at least to give the borrower fair warning.

This is particularly true when the borrower is not likely to notice the danger himself. In another accident case, a home owner incurred legal liability by letting a 13-year-old boy use his power saw. Pointing out that the boy had no previous experience with power tools, the court said he was all too likely to get hurt.

On the other hand, the danger may be so obvious that a warning would be superfluous. This was the ruling in a case involving a welding device that had an unguarded electric fan. The borrower, cut by the fan, filed suit for damages, claiming the lender should have warned him that the blades were exposed.

But the court dismissed his action, saying that the blades—in plain sight—were their own best warning to be careful. As one judge put it, there is no duty to warn the user that a knife will cut, that a match will burn, or that a hammer will mash a thumb.

"No one needs notice," said the judge, "of what he already knows."

is being replaced by three men, according to the company officials. Wyker was here to make an announcement of the opening of a new district office in Waco, to serve Cameron and surrounding area.

# COUNTY NEWS

## Milano News

Mrs. R. L. Myrick

Mrs. Claud White has returned from a two week visit with her daughter Rev. and Mrs. Allen Adams and family of Chateau, Mont.

Mr. and Mrs. Ross McCallum of Houston visited over the week end at their lake home on the George Fisher lake near Milano. They also visited her father Mr. Bob Diver, and other relatives they were accompanied by Mr. and Mrs. Ronnie Graham.

Truitt (Nat) Baukston has returned from Richards Clinic where he was a patient.

Visitors in the home of Mr. and Mrs. Bill Morgan during the holidays were Mr. and Mrs. Joe Morgan and Johnny of Fairfield, Mr. and Mrs. Lee Kergan and Angie of Fairfield, Mr. and Mrs. Harold Foerester, Christine and Van and Ronnie Close of Dallas and Mr. and Mrs. John Morgan of Round Rock. J. T. Morgan and Linda Woods of Milano.

Guest recently in the home of Mr. and Mrs. Bill Morgan were Mrs. Ophelia Morgan of Rockdale and Earl Morgan of Granley Mo.

Callie Gerdes of Caldwell visited in the home of Mr. and Mrs. G. C. Sloan Sat.

## News From Burlington

By Mrs. Gerald Foshea

Mrs. W. G. Marek entered Scott and White Hospital in Temple on Sunday afternoon and had surgery on Monday morning, January 15.

Friends here were sorry to hear of the passing of August Lorenz on Sunday at Halbert Vardiman Hospital of Rosebud.

Mr. and Mrs. Gerald Foshea and Mr. and Mrs. Thomas Polk and boys of Rosebud had Sunday dinner with Mr. and Mrs. Joe Ralston and family of Little River.

The Henry Lee Hagerty

of Sugarland visited Mrs. Henrietta Hagerty, Kathleen and Harry during the week-end.

Mrs. J. T. Prescott and Jake visited Mr. and Mrs. Robert McCollum, Joyce and Sharon of Waco on Saturday.

Mr. and Mrs. Tommy Layne and boys of Rosebud and the Roy Lee Franklins of Bryan visited Mrs. J. T. Prescott and Jake during last week.

Mrs. Herman Juergens of Ben Arnold entertained the 42 club on Tuesday afternoon.

Mr. and Mrs. George Pool of Waco visited the Gerald Fosheas on Sunday night. Mr. and Mrs. Henry Davenport, Mr. and Mrs. Gerald Foshea and the Arthur Davenport of Cameron visited the Wesley Davenports on Tuesday night.

Mr. and Mrs. Monroe Lange and Randy of Rosebud had supper with Mr. and Mrs. Wesley Davenport on Monday night.

Mr. and Mrs. W. G. Marek and Charles and Mr. and Mrs. Lynn Heugatter had Sunday dinner with Mr. and Mrs. Billy Jack Kilpatrick of Temple.

RETIRING - Frank K. Hyder, design engineering supervisor at Alcoa's Rockdale Works, will end over 40 years company service when he retires February 1. He started with Alcoa in 1928, and has been at Rockdale Works since June, 1952. He has served on the Rockdale city council and worked in other civic organizations at Rockdale.

## Obituaries

### Wyatt

Clarence C. Wyatt, 78, of Gause, died Thursday morning in a Temple hospital.

Funeral was held at 2 p.m. Friday at the Gause Pentecostal Church, the Rev. Harold Lange officiating. Burial was in the Pin Oak Cemetery near Gause.

Mr. Wyatt was born in Falls County. He was a retired farmer and carpenter and a veteran of World War I.

Surviving are four sons, Alvin Wyatt of Gause, Jordan Wyatt of Freeport, Walker Wyatt and Donald Wyatt, both of Van Horn, Iowa; a daughter, Mrs. Margie Gibson of Houston; a sister, Mrs. Bertha Jones of Kosse; 16 grandchildren and nine great grandchildren.

Marek-Burns Laywell Funeral Home was in charge.

## Scout Pack

### To Meet

The regular monthly pack meeting of the Cub Scouts will be held on Monday, January 22 at the Methodist Fellowship Hall at 7 p.m.

Awards will be presented to several of the Scouts and the boys will demonstrate their home made musical instruments and compete for prizes.

All Cub Scouts and their parents are urged to attend this pack meeting.

### NOW IS THE TIME TO MOVE

### TO THE CAMERON MOBILE HOME PARK

Take advantage of this new development of larger lots; privately fenced with concrete patios & sidewalks; large play area; shade trees; Come & See.

This park meets and exceeds all Safety Standards required by the new City Ordinance passed recently. East 3rd Street: One block behind the Milam Motel.

# Aging Patrol Boats Form Protection For Viet Ships

By Robin Strathee

## SOUTH VIETNAM

A fleet of aging, rather battered fiber-glass patrol boats form the main protection for shipping once it leaves the open China Sea and heads up a narrow, marshland river to Saigon. The 30-foot long boats range the twisting long Tao River from this former American riverside naval base, six miles from the Saigon docks, through 18 miles of mudflats, marshes, mangroves and stunted jungle growth to the south China Sea.

The river bisects a 300 square mile area of forbidding delta country called the Rung Sat (killer forest) special zone.

It was once a strong sanc-

tuary for the Viet Cong and a few North Vietnamese troops and although the numbers of communist guerrillas have been greatly reduced over the years, it is still regarded as a danger, particularly as a potential source of attacks on Saigon's shipping lifeline.

Patrolling the long Tao River and probing several smaller channels and dozens of streams in the Rung Sat is a job once carried out by the Americans.

The last U. S. - manned patrol boat tied up at the docks here in the middle of 1971 and since then the operation has been completely in South Vietnamese hands. A handful of administrative advisers left in Nha Be are the only Americans concerned with Rang Sat naval security now.

Navy Lieutenant Luu Trung Quang, 24, explained in between shouting orders that sent his patrol boat out into the long Tao: "We do all the maintenance on the boats ourselves now but it is not easy as the boats are quite old. They need a lot of work."

"The Americans used them before sending them to Vietnam up to six years ago and worked them pretty hard here before handing the boats over to us."

He pointed to several holes in the stern where ragged edges of fiber glass fluttered as the boat increased speed.

But the engine ran sweetly, quickly pushing the propellerless craft to near top speed of 45 knots as it started weaving from bank to

bank, occasionally racing only inches from the muddy riverside.

The boats, which carry a crew of four and mount three big .50 calibre machine guns and a lighter M60 gun, draws hardly any water, operating on the jet principle of forcing twin streams of water through large nozzles in the stern.

For patrolling purposes the long Tao is divided into five sections with two boats responsible for each 24 hours on station before being relieved for 24 hours.

The communist force in the Rung Sat now numbers only about 50, according to the South Vietnamese navy, but it is now feared they may be arming themselves with a Soviet-built guided missile only recently introduced to the Indochina war theater.

Patrol boat G57 slowed and nosed on to a rickety pier of bamboo and wood jutting out from an army outpost. Quang said that the officer who commanded the post organized the operation which brought the guided missile threat to light.

Captain Nguyen Van Ph-

ung, 28, recalled the action over lunch as the busy river traffic of big tankers, freighters, small rusty coastal cargo boats, old wooden ferries and fishing sampans passed by.

"We knew where they were heading so we picked about 15 of the best men from several units, disguised them as Viet Cong and sent them into the area in sampans at night," he continued. "After they got past the Viet Cong sentries they set up an ambush and opened up on two sampans. Six Viet Cong were killed."

One sampan was sunk but the other floated away. In the morning Phung flew over the area in a helicopter and spotted three guided-missile launchers in the sampan which had been drifting all night.

"I was so excited I jumped right out of the helicopter into the water and grabbed the sampan," he laughed.

The launchers turned out to be designed for AT-3 anti-tank radio-guided missiles used by the communists in South Vietnam.

None of the powerful projectiles have yet been fired

at shipping.

Quang gunned our boat back into the middle of the mud-brown river heading for a large tanker sliding towards Saigon. Around her buzzed two other boats, sometimes circling sometimes racing a mile ahead hugging the bank.

Helicopter gunships clattered overhead and inland army units kept watch a little more than the two mile AT-3 missile range from the river.

"You might think we are overdoing it," Quang said. "But think of a missile hitting all that fuel."

## WIN PROGRAM

After three months (July, August and September) of registering employable welfare recipients for jobs or training, the revised Work Incentive (WIN) Program had placed 21,164 persons in regular, unsubsidized jobs. The WIN Program is administered by the Manpower Administration of the U. S. Department of Labor.

## CANAL BLASTING

Blasting open the Panama Canal required 61 million pounds of dynamite.

# Poage Introduces Bill To Reinstate REAP Program

WASHINGTON

Legislation reinstating the Soil Conservation Program known as REAP (Rural Environmental Assistance Program) was introduced by Chairman W. R. (Bob) Poage, (D-Tex.) of the House Committee on Agriculture.

The move is designed to reverse the action of the Department of Agriculture, which on last December 26 announced that it was terminating REAP as an economy move.

Congressman Poage described REAP, formerly known as ACP, as one of the most constructive and worthwhile programs ever authorized. He has received a deluge of complaints from coast to coast, many conveyed to him through both Democratic and Republican Congressmen, protesting the Administration's decision.

The new legislation would make mandatory the provisions of existing law which authorizes the REAP program and provides \$225 mil-

lion for it in the current fiscal year. Under the existing law administration of the program, according to the Administration, is at the discretion of the Secretary of Agriculture.

After observing that soil conservation programs have been carried on by the Department of Agriculture since 1936 and have had wide popular support, Poage said:

"We are faced with the fundamental question as to whether the Executive Branch or the Legislative Branch of government shall determine the priorities on expenditures of tax funds."

"So far as I am concerned the Constitution clearly places this responsibility in the hands of the Legislative Branch."

He said he expects strong bipartisan support for the bill and will hold hearings on it as soon as possible after the Committee is organized.

# BUSINESS REVIEW

## I. T. Gilbert Is A Top Salesman For Mutual Of Omaha

"I. T. Gilbert, representing Mutual of Omaha and its life insurance affiliate, United of Omaha, has served Cameron, Rockdale and the surrounding area, for the past seven years as your good neighbor whose specialty is programming an insurance plan designed to fit your particular needs.

As an experienced insurance counselor he can help you provide the finest medical care for yourself and your family through our Wide Range insurance program.

He can also show you how to safeguard your paycheck and your savings.

As you know, the cost of a sickness, an accident, a prolonged stay in the hospital, or a long term disability, can be a financial disaster for you and your entire family.

Mr. Gilbert is also an expert on life insurance, too, and is a member of the Presidents' Club, which is one of the highest honors he can

hold with Mutual and United of Omaha.

Mr. and Mrs. Gilbert and their three children have lifelong residents of Milam County, and this means you are doing business with a representative who will give you fast local service with any of your insurance needs.

Why not call Mr. Gilbert today at 697-6766, or write him at P. O. Box 63, Cameron, Texas 76520? This could be the most important thing you do today for you and your family."

## Service Is Key To Hefley-Stedman Success

Hefley-Stedman Motor Company, a leader in auto sales and service for more than 50 years, combines old time friendly service with up-to-date knowledge of the automobile business.

The auto dealership first opened in the corner building across from the Cameron Post Office. In 1925 they moved into more spacious quarters at the present location, 115 N. Houston.

Further expansion included a used car corner at Central and 2nd streets and parking facilities opposite.

H. H. Stedman owner of the local Ford - Mercury dealership, said "We have built our business on service." Ford Motor Company recognized this when they presented him with a large plaque engraved: "In recognition of his outstanding record in providing the

highest quality of service throughout his organization for the complete satisfaction of his customers."

Behind the "highest quality of service" are Hefley Stedman Motor Company employees who have a combined work record of more than 110 years with the firm. Alvin Meyer, office manager, leads the list with 30 years at the local auto agency. In the Parts Department are Vernon Reimer, 20 years with Hefley Stedman Motor Co. and Dana Monroe, 14 years.

Service Department personnel include Louis Vrazel foreman, 15 years at Hefley-Stedman; Simon Rangel, 18 years; Edward Dohnalik, Steve Basonic and Richard Vega.

In the Sales Department are Sam Janes, who has many years experience in auto sales including 5 years at Hefley-Stedman, and Dean White, a veteran of 10 years experience in auto sales.

Garden Club  
Program On  
Terrariums

"Earth in a Bowl" - the planning, planting and care of a terrarium, was the program for Fleur de Lis Garden Club Thursday night. The club met at the home of Mrs. Durwood Cobb with Mrs. Roy Boutwell serving as co-hostess.

Introducing her program, Mrs. Bill McCutchen explained that a terrarium is a miniature garden enclosed in glass for an ideal growing atmosphere.

Demonstrating the planting procedure Mrs. McCutchen suggested using a base layer of charcoal to absorb odor and a second layer of gravel for good drainage. She displayed several terrariums which showed the use of miniature ornaments to add color and interest.

During the business meeting the Club voted to fertilize the yard at the Cameron Day Care Center and plant a magnolia tree in observance of Arbor Day.

Officers elected to serve for the 1973-74 club year are: Mrs. Frank Luecke, president; Mrs. Jim Woodum, vice president; Mrs. Wilbert Lucko, recording secretary; Mrs. Griffin Barrett, corresponding secretary; Mrs. William Kelm, treasurer; Mrs. Jim Camp, historian and Mrs. Derwood Cobb, parliamentarian.

Cake and coffee were served in the dining room where an arrangement of pine cones and holly centered the serving table.

BPW Club  
Has Meeting

Business and Professional Women's Club met Monday night at the Club House at 4th and Milam with Mrs. Willie Falkner presiding. Mrs. Ruby Moseley gave the opening prayer.

Refreshments were served by hostesses Miss Margaret Clark and Mrs. Dede Payne.

## McNeill - Vansa Church Vows Unite Couple

Miss Barbara Vansa, daughter of Mr. and Mrs. Emil Vansa, and Terry Lynn McNeill, were married Saturday January 6th at SS. Cyril and Methodius Catholic Church in Marak.

Rev. John Geiser performed the double-ring ceremony. Mrs. Barbara Wohleb provided the wedding music.

Given in marriage by her father, the bride wore a gown of velvet designed by the bride and made by her mother.

Her chapel length veil fell from a crown of pearls. She carried a cascade bouquet of carnations.

Miss Janet Vansa, sister of the bride, served as maid of honor. Also attending was Miss Debra McNeill.

Serving as best man was Clarence McNeill, brother of the groom. Groomsman was Charles Vansa.

Ushers were Jim McNeill and Charles Obermiller.

After the ceremony, a reception was held at the Marak Parish Hall.

Miss LaVerne Vansa and Miss Sue McNeill presided at the bride's book.

Other members of the houseparty were Mrs. Eugene Marak, Mrs. Laddie Dohnalik, Miss Joetta Mikulec and Miss Mary Dohnalik.

The bride is a 1971 graduate of Yoe High School. She was employed at Scott and White Clinic.

The groom graduated from

Buckholts High School and presently is a senior at Sam Houston State University in

Huntsville. The couple will make their home in Huntsville.

## Book Review Is Program For League

An account of World War II suffering that paved the way to a spiritual re-awakening for a Dutch family was the substance of a book review presented at the Arts and Service League January meeting held Tuesday afternoon at the home of Mrs. Don Humble. Mrs. Forrest Sapp was co-hostess.

Mrs. Robert Curry of Temple reviewed the book "The Hiding Place" by John and Elizabeth Sherrill which was based on the real life experiences of Corrie ten Boom whose quiet life as a watch repair shop owner was shattered as her family aided Jews fleeing Hitler's wrath. The family's arrest and sufferings in a concentration camp led to a life of service and spiritual witness for Miss ten Boom. Mrs. Curry concluded the review with the book's epilogue "Out of the suffering God revealed his love."

During the business meeting Mrs. Bernay Dusek announced that the League's annual spring luncheon will include a fashion show with the theme "Country Fresh Fashions." The benefit luncheon will be held February 20 at Methodist Fellowship Hall.

Refreshments were served from the dining table following the meeting with Mrs. Dana Kestenbaum and Mrs. Frank Luecke assisting. A large African violet in silver bowl centered the table and appointments were of silver.

## 80 Candles Birthday Observed

Mrs. Mary Ainsworth was honored on her eightieth birthday with a gathering of her family on Sunday, January 7, in the dining room of the Cameron Community Center. Forty-seven of her family were present from Dallas, Houston, Bryan and Cameron.

Her five daughters, Bernice Fikes, Josephine Hayes, Bertha Duncum, Ruby Brady and Marguerite Laywell with Ima Batte were hostesses for the celebration.

All of Mrs. Ainsworth's descendants are living and all were present except for one grandson who lives out of state.

The group enjoyed an afternoon of visiting after the noon meal was served and

Mrs. Ainsworth had cut and served the three tiered cake which was encircled with eighty candles and topped with a nose gay of miniature roses.

MRS. AINSWORTH

## Personal Mention

Mrs. D. K. Hall, longtime resident of Milam County, has moved to The Wesleyan in Georgetown.

Houseguest at the John B. Hendersons, Sr. last week was their son-in-law Parker Hallberg who was enroute from Washington, D. C. to his home in The Philippines.

Mrs. Robert W. Hoelscher of Burlington attended the Federation of Texas A&M University Mother's Clubs executive board meeting in College Station Saturday. Mrs. Hoelscher is treasurer of the board.

birth defects are forever. **March of Dimes** unless you help.

THIS SPACE CONTRIBUTED BY THE PUBLISHER

## Shrub, Tree Planting Is Club Topic

The Civic Garden Club met in the home of Mrs. J. A. Bowling with Mrs. J. E. Crook as co-hostess on January 11 at 2 p.m.

Mrs. Leo Fuchs presented the program "Shrubs and Trees for Garden Beauty and Flower Arranging." She used a chart and specimens to make the topic meaningful and explained the term collectivism as used by landscapers.

In the business meeting the club voted to give \$10 to buy tickets for the student program given by the Dallas Symphony Orchestra.

Officers elected for the 1973-74 club year are: Mrs. M. H. Wimberly, president; Mrs. Leo Fuchs, vice president; Mrs. Theo Ashenbeck, recording secretary; Mrs. Nelson Green, corresponding secretary; Mrs. Milton Falkner, treasurer; Mrs. B. D. Clark, parliamentarian; Mrs. J. E. Crook, historian and Mrs. Robert C. Hudson, time-keeper.

Refreshments were served from the dining table which was centered with an arrangement of apples and holly. The centerpiece and an arrangement of chrysanthemums and pittosporium created by Mrs. J. E. Crook were judged by members and both received favorable criticism.

# Could your child call home if he were lost?

Could he reach you in an emergency? Or, could someone call for him?

Home. Mom and Dad. To a lost or frightened child your voice means security. That's why we're offering the Emergency Phone Call Card. No charge. It's a billfold-size card with your child's name, address and home

phone number. And space for the numbers of a trusted friend or relative, and the family doctor.

There's also a slot for a dime.

To order your card — or cards — write: Southwestern Bell, P. O. Box 972, St. Louis, Mo. 63188.

Southwestern Bell

# Buckholts News

Mrs. Edwin Gandy

Mr. Adolph Widner was able to be moved from the Sante Fe Hospital in Temple where he has been a patient for over 3 months, to the nursing home in Cameron.

Mrs. Mary Widner's brother is very ill and he was carried to the Breckenridge hospital in Austin.

Mr. John Pevehouse is still a patient in St. Edwards hospital in Cameron.

## W-2 Forms Due Jan. 31

Employers were reminded today by the Internal Revenue Service that employees should receive two copies of a Withholding Statement, Form W-2, on or before Wed. January 31, 1973.

A. P. Andrews, administrative officer of the Internal Revenue Service at Temple, said, "This statement shows the total wages paid and the income tax and Social Security tax withheld, if any, during the calendar year 1972."

Total wages shown on an employee's W-2 must include amounts received as sick pay. Sick pay is not required to be shown separately.

If it becomes necessary to correct a W-2 after it has been given to an employee, a revised statement must be issued and marked "corrected by employer."

W-2's have to be filed with income tax returns. Taxpayers who had more than one job last year should attach all W-2's to the front of their return.

He fell during the ice storm in November and broke his hip.

Bro. and Mrs. C. A. Kent visited Mr. Pevehouse in the hospital Sunday afternoon.

Mr. Herman Glaser is home and improving after being in St. Edward hospital for several weeks.

Mrs. E. B. Hyer and Mrs. Ethel Chapman are on the sick list but are able to be at their home.

Mrs. G. H. Beckhusen is a patient in Scott & White Hospital in Temple.

Visiting in the home of Mrs. Arba Arnold on Sunday were Mrs. Aud Matthews, Darrell and Debra, Mr. and Mrs. Doyle Arnold and Kenneth and Mrs. Lois Dake and family from Waco.

Kenneth Arnold has returned home after spending some time in Slaton where he was employed.

Mr. and Mrs. Steve Burris visited the Douglas William family in San Antonio on Sunday.

Visiting in the W. H. Gilbert home over the week end were Mr. and Mrs. Joe C. James and family of San Antonio. Mr. and Mrs. Bobby James of Huntsville. They were here to help Mrs. Gilbert celebrate her birthday on Saturday.

Mr. and Mrs. Travis Hill and children spent Sunday in the home of his parents Mr. and Mrs. Oliver Hill of Rogers. There they were joined by his brother Edward Hill and family to celebrate Mrs. Hill's birthday.

The Gresak brothers went to Houston Monday to attend the funeral of their brother-in-law.

## Newton Named Bank VP

Joe D. Newton, son of Mrs. W. O. Newton of Cameron, has been elected by the board of directors of the Citizens National Bank in Waco as executive vice president.

A native of Cameron, Newton graduated from Yoe High School and obtained his BBA degree from Baylor University. He also graduated from the School for Bank Administration-University of Wisconsin.

Newton is a past president of the National Alumni Association of the school and is a trustee of the school.

Since beginning employment with the Citizens National Bank in 1939, Newton has served in many capacities.

He was elected chairman of the Audit and Operations Section of the Texas Bankers Association and as president of the Central Texas Bankers Association and Administration Institute. In addition he has served as a vestryman and as senior warden of St. Alban's Episcopal Church.

Newton is married to the former Helem Awtrey and they live at 5205 Lockwood Drive.

His father, the late W. O. Newton, was executive vice president of the Citizens National Bank in Cameron for many years.

## New TJC Pool Is Open On Two Nights

Temple Junior College now has a heated, indoor Olympic-size swimming pool that is open to the public two nights a week, Tuesday and Thursday.

The college is also holding classes for all phases of swimming. The class is held on Wednesday nights from 7 to 10.

Registration will be extended through January 26 for all those interested in night swimming courses.

A weekly public service feature from the Texas State Department of Health

# Accent on Health

J.E. PEAVY, M.D., Commissioner of Health

Children in Texas who seldom have an opportunity to receive treatment from a dentist will benefit in 1973 from a new Medicaid program of the Texas State Department of Health and Texas Department of Public Welfare.

Welfare families with children will be eligible for the dental program when it begins early this year.

The State Health Department will administer the program. Initially, the program will be for children under the age of six years--approximately 100,000 children in Texas. Beginning on July 1, the program will be expanded to cover all welfare children up to age 21--more than 300,000 children.

The program has dual goals. In addition to the dental program, Medicaid Title XIX funds also will be used to provide a medical screening and treatment program. The medical screening services will be highlighted in next week's Accent on Health.

The two segments of the program--medical and dental--will share centralized administrative, data processing and fiscal facilities. However, operation of medical and dental programs will be under separate directors.

The dental program will operate under the Health Department's Division of Dental Health in Austin. It has been described by the Division staff as "a tremendous challenge and a meaningful opportunity to provide for the needs of many children who have been disadvantaged for so long a time." Limited portions of this target population have received services in programs of local public health dental clinics, and others undoubtedly have been seen by dentist who volunteered their services.

Dentist under the new program are selected on a volunteer basis. Any Texas licensed dentist who wished to participate may do so by

completing a brief application with the Division of Dental Health and filing a fee schedule with his dental association. Once an application is accepted, the dentist's name will be provided to the local and county offices of the Department of Public Welfare. Welfare social service staff workers, called case workers, will determine the eligibility of consumers for services under this program and enter names on a section of a dental invoice.

Once a child is found eligible, a dental appointment can be arranged.

## Harbour To Remain In Tokyo With Job

ROGERS

Perry D. Harbour, son of Mr. and Mrs. B. F. Harbour of Rogers, has been requested by the international accounting firm for whom he works, to remain in the company's Tokyo, Japan office another year. Harbour was sent from the Dallas office three years ago.

Harbour and his wife, the former Sue Wurline of Dallas, have made trips so far to Korea, Hong Kong, Singapore, Bangkok, and Taipei, Taiwan, since they have been in Japan.

The Harbours expect to return to the United States in late 1973.

## 3 Cameron Students Are TJC Graduates

Three students from Cameron were among 26 students at Temple Junior College who met the requirements for the Associate Degree at the close of the fall semester on December 20. They are Charles T. Chandler, Cynthia Kreig (honorary graduate), and John Edward Posival.

## Happy Birthday

January 22

## Students On Dean's List

Three students from Cameron are listed on the falls semester Dean's List at Temple Junior College. They are Jackie Lynn Allen, Harry Perrin, and John Edward Posival.

Marcia Barkemeyer and Martha Vaculin from Buckholts also were named to the honor list.

Also named were Teresa Hoelscher of Burlington and Faith Springer of Rogers.

## Pastor To Conduct European Tour

Dr. and Mrs. Joe Weldon Bailey of Calvert will conduct another tour this summer with the itinerary taking them to six major countries of Europe. Dr. Bailey is pastor of the First Baptist Church, Calvert.

The tour planned for this summer will depart from Dallas July 18. The twenty-one day tour will begin in Amsterdam and end in London.

Dr. Bailey, who is an experienced tour director, said, "Our tour this summer will provide one of the finest routes of Europe we have ever provided. It is planned so that we travel in Europe by motorcoach, rail, and boat-train. The group will depart from Dallas via World Airways, the world's largest charter airline. It is hoped that many from this area will join us."

In 1970 Dr. and Mrs. Bailey conducted a tour around the world with thirty-three in the party. The six weeks' tour included fifteen countries. In 1960 The Baileys visited South America. Their experience in world travel will enable them to provide the best for their travelling companions.

The tour this summer will include the Netherlands, Germany, Italy, Switzerland, France, and England. Brochures are available upon request. Dr. and Mrs. Bailey may be reached by telephone by dialing 713 364-2321 or by mail, Post Office 65, Calvert, Texas 77837.

## PROTECTION ACT

Federal wage garnishment provisions under Title III of the Consumer Credit Protection Act limit the amount of an employee's disposable earnings which may be garnished by a creditor in any one week, and protect him from being discharged from his job for any one indebtedness.

## INDIAN PIPES

Ceremonial pipes smoked by American Indians more than 1,500 years ago had bowls skillfully carved in the shapes of birds and animals, sometimes with inset pearls for eyes, National Geographic says.

### GRAND TOUR OF EUROPE

Departing July 18 21 Days

Conducted by Dr. and Mrs. Joe Weldon Bailey  
Calvert, Texas

A trip of a life-time for those wanting to visit Europe.  
Netherlands-Germany-Switzerland  
Italy-France-England

The Baileys are experienced Tour Directors. All ages invited to make tour.

## London's Traffic Jams Bring Blast From Heath

By Paul Smurthwaite

LONDON  
London's traffic has become so congested over recent year that even the taxi drivers are giving up. "Most cabbies just go home when the jams get too bad," said 25-year-old Alan Holt, who has turned to long distance truck driving for an easier life. "They just can't stand it any more. Everything grinds to a complete halt and there's nothing you can do." Holt claims many other drivers, including six of his friends, have given up taxis because "nothing is done about the number of cars allowed into central London."

The worsening situation came to a head in late November when a limousine carrying Prime Minister Edward Heath was snarled up in a jam between his official residence and the House of Commons.

Heath immediately put in a long distance telephone call to London's municipal chief, Sir Desmond Plummer, who was visiting Tokyo at the time, demanding to know what was being done about the city's traffic problems.

Upset by Heath's sudden outburst, Sir Desmond replied that snarl-ups were occurring because the government had refused to provide more money for better roads.

The Prime Minister later admitted that he had "blown his top," but suddenly a problem which had been obvious to any London motorist for 10 years became big news.

Trade unions, motoring organizations and newspaper pundits produced a flood of bold new ideas to prevent the situation from becoming any worse -- including one proposal to ban all but essential traffic from the center of the city.

But experts agree that a massive new road-building program is the only answer.

Over the last 15 years a huge network of motorways

has sprung up all over Britain. Many of these new roads lead straight to the capital. But once they hit the great sprawl of outer London the motorways just disintegrate into a maze of narrow suburban streets, leaving the motorist to cope as best he can. The result: traffic chaos.

The Royal Automobile Club (R.A.C.), founded in 1897 to protect the motorists interests, has called for a 12-month crash program of road-building and car park construction. It also wants cheaper public transport fares to encourage commuters to leave their cars at home.

Says R.A.C. executive Mike Limb: "One hell of a lot could be accomplished in a year. They have got to be quick, otherwise the situation is going to get worse."

The Automobile Association (A.A.), which has similar proposals to the R.A.C., is equally convinced that disaster lies ahead if nothing is done.

Alec Durie, A.A. director general, says: "London is in danger of becoming Britain's Cinderella city as far as progressive improvements on the transportation front are concerned."

"We have been facing a very serious and urgent community problem for

many years." One of the answers to the commuter crush that hits London every working day of the week has already been introduced in several offices and factories -- without apparent loss of efficiency or production.

They call it "flex-time" working, which means employees can choose what hours they work within a 12 or 13 hour period laid down by their employers.

The system also has an obvious offshoot advantage for those who have difficulty waking up in the morning -- they can arrive for work at noon if they wish -- and employers report a much happier office atmosphere.

Final responsibility for a solution to the traffic crisis lies with Sir Desmond's body, the Greater London Council.

The G.L.C. is tackling the problem from two angles -- improving roads and re-training motorists from using existing roads.

Phase one has run into red tape. An 18-month public inquiry -- longest of its kind ever experienced in Britain -- has meant a delay of at least two years in starting work on a system of three new ring roads encircling the capital.

## Egyptians Plan Land Reclamation

By Granville Watts

CAIRO

Egypt is planning a "turn-the-desert-green" campaign of land reclamation that could change the country's map.

From the air, Egypt looks like a vast yellow and brown wasteland severed by the narrow green belt of the Nile River which snakes its

way through the desert lands to the lush delta.

In two major projects, the government now aims at reclaiming by irrigation a vast arid area between the Nile and the Suez Canal, and another west of the delta toward the famous World War II battlefield of El Alamein.

Preliminary work started on the first project parallel to the Suez Canal, but was stopped by the 1967 war with Israel. The project covers an area of 462,000 acres extending from Port Said to Ismailia.

The government plans to build 100 villages, eight towns and a city which will be the capital of the region.

Irrigation will come from the Aswan high dam waters in a plan estimated to cost about 425 million dollars.

The second ambitious project provides for the reclaiming from the western desert of 300,000 acres west of Alexandria. The Soviet Union is helping Egypt with a loan covering part of the estimated cost of about 745 million dollars for this project.

The reclaimed land close to the Mediterranean is to have 114 villages, six towns and a capital city, in addition to animal production centers, dairies and factories.

Dr. Mustapha Al-Gabali, minister of agriculture and land reclamation, has said that any land reclamation project should be part of an integrated scheme with provision for housing, road-building, electricity supply and other utilities.

The total of land reclaimed in Egypt so far amounts to 912,000 acres, government officials said.

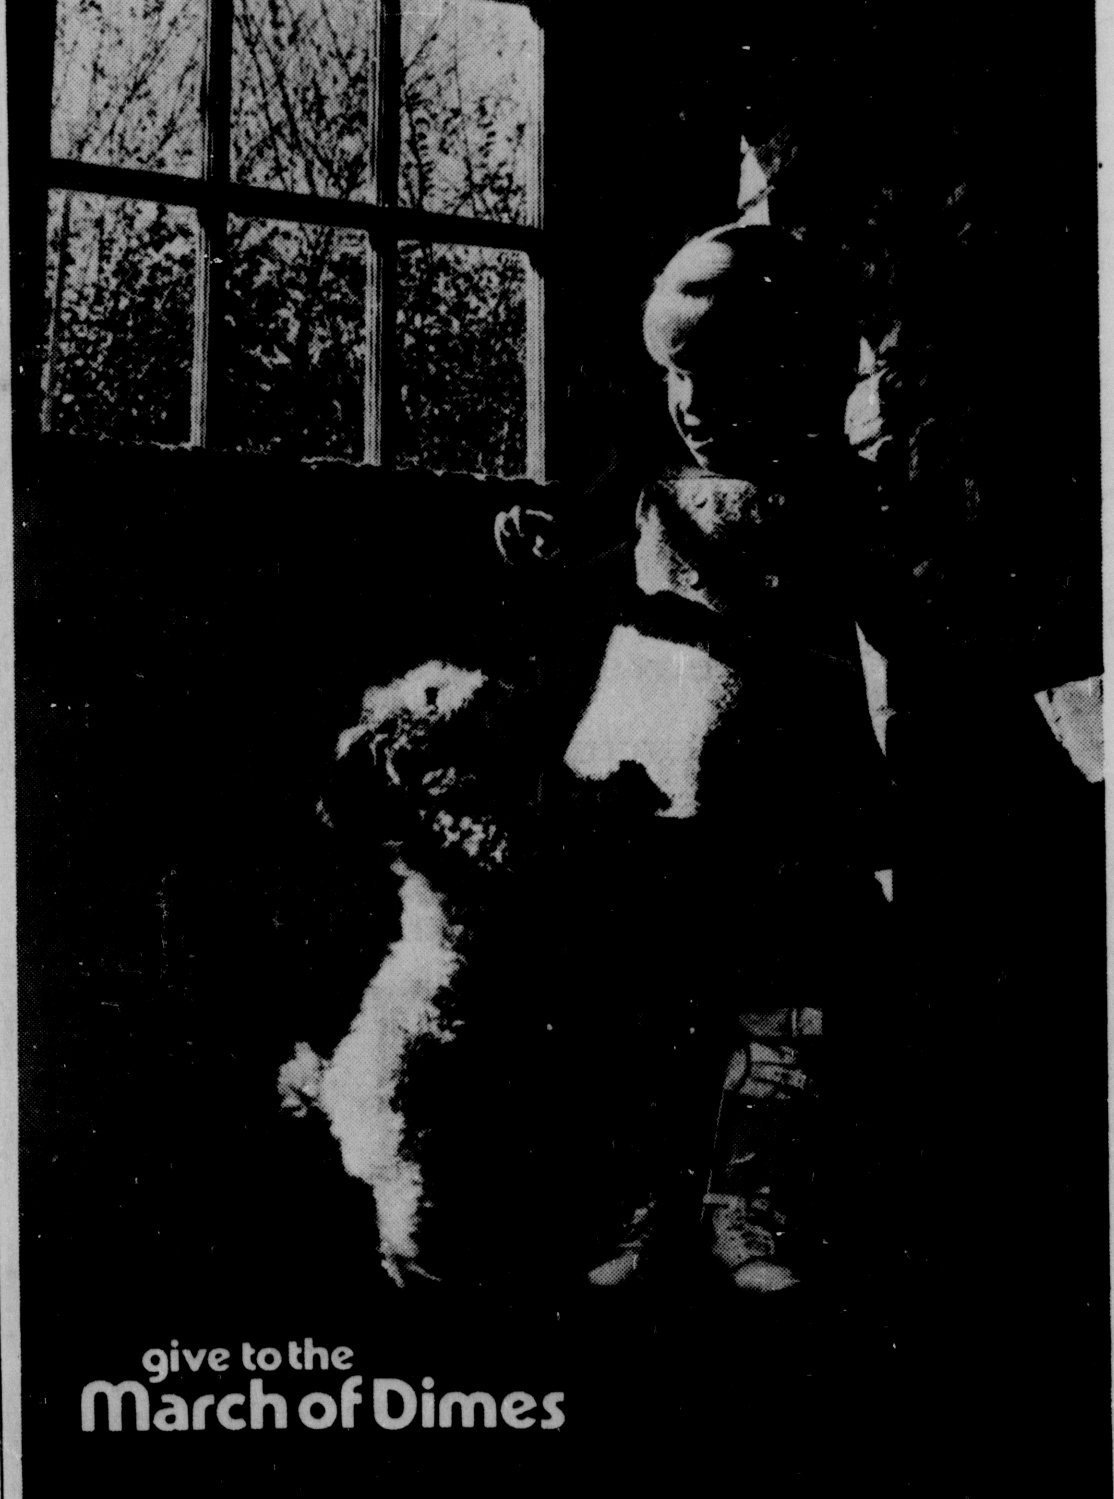

This figure includes 244,000 acres west of the delta, and 81,000 acres in upper Egypt.

The projects will be largely financed with foreign aid, and their progress will obviously be tied to the general state of the Egyptian economy.

TO HEAD COMMITTEE - State Sen. Bill Patman of District 18, right, was named by Lt. Gov. Bill Hobby to head the Senate Sub-committee on Agriculture. The newly

adopted Senate rules call for the nine standing committees while during the last legislative sessions Senate standing committees numbered up to 27.

## Winter Feeding Of Birds Can Bring Great Pleasure

Winter feeding of birds can create a natural laboratory just outside your window, providing an opportunity to observe some of nature's most beautiful creatures.

Charles Ramsey, wildlife specialist for the Texas Agricultural Extension Service suggests feeding birds especially during the winter months when ice storms or heavy snows seal up the food supply on the ground for days or even weeks.

Birds can stand frigid

### Dates Set For Relays, Banquet

Dates have been set for the Cameron High relays, the Junior High relays and for the annual All-Sports Banquet for Yoe High School, according to Ed Cauley, Yoe head coach.

The Cameron relays will be held March 17, a Saturday. The Junior High relays will be held the Saturday before, on March 10.

Speaker for the All-Sports Banquet to be held May 7 will be George Kirk, former Yoe coach and now offensive coordinator at Baylor.

Coach Cauley also said the Austin American Statesman had picked Paul Vaculin as linebacker and Will Turner as defensive back on their team. The Waco News Tribune picked George Whiteside as offensive back on their team. This makes five Yoemen on All-Centex teams picked by area newspapers, the coach said.

subzero weather if they can eat enough food to keep up their body temperatures, points out the Texas A&M University specialist.

With the inquisitive chickadees usually the first to discover the where-abouts of generous handouts, birds readily accept any hospitality they can find during cold weather.

Once suet and seed are put out, Ramsey advises against discontinuing feeding later in the winter because the birds will come to depend on this regular supply of food.

Winter feeding is sometimes complicated by problem guest such as English sparrows, starlings and squirrels. English sparrows and starlings are introduced species that shoulder out their native competitors. They are not protected by law so they may be trapped and disposed of. There are several live-traps available commercially that are suitable, points out Ramsey.

Since trapping may not be feasible, the specialist suggests scattering scraps of bread on the ground in the open for sparrows and starlings while feeding grain to the more timid birds in a sheltered spot among trees or bushes.

Squirrels are sometimes troublesome, but they are also interesting to observe. Bird feeders suspended by small wires several feet from anything which squirrels might climb usually solves the problem.

Although some people object to the bullying ways of jays, these birds are beautiful creatures, which, like squirrels, are part of the na-

tive wildlife population. Jays like the larger seeds such as sunflower and will scatter a seed mixture with smaller seeds. So, Ramsey suggests feeding large seed in a separate feeder for jays.

Birds that would ordinarily eat insects must be fed animal food entirely; in other words, suet, beef fat or chopped meat. Seed-eating birds will eat little except vegetable food. Some birds such as nuthatches and chickadees, will eat both suet and seeds. A minimum variety of feed should include suet, sunflower seed, millet and cracked corn, suggests the specialist.

As far as feeding devices are concerned, many are available commercially. But a small shelf tacked to a tree to hold seeds and a small piece of hardware cloth to hold suet will be sufficient, adds Ramsey.

Many seedlings planted on tree farms are genetically improved for better growth.

## Yoe Downs Gatesville

By Marilyn Hawk

The Cameron Yoemen defeated Gatesville 77-63 Thursday night for another district win. The Yoemen led the entire game with a score of 42-24 at half-time.

High scorer of the game was Smalley of Gatesville with 29 points. Jackie Chubb was Cameron's high scorer with 18 points, made by 6 field goals and 6 free throws.

Pat Sheguit scored 16 points with 8 field goals and 4 free throws.

## USDA Changes Wheat Program

WASHINGTON

In a move to assure an adequate supply of Agricultural Commodities to meet a growing market demand, the U. S. Department of Agriculture announced the elimination of the 86 percent mandatory set-aside requirement under the 1973 Wheat Program except for those producers who elect to participate in the voluntary set-aside.

In order to participate in the voluntary set-aside program, these producers will be required to comply with the mandatory set-aside as well as the voluntary program.

Also, the department announced that livestock gra-

azing will be permitted on acreage set aside under the provisions of the 1973 feed grains and wheat programs.

These actions clearly demonstrate the flexibility of the set-aside programs, USDA officials said, in that it enables adjustment to rapid changes in market demand.

When the 1973 Wheat Program was announced in July, 1972, the amount of set-aside land required for program participation was an acreage equal to 86 percent of a farm's domestic allotment.

Since announcement of the program, demand for wheat worldwide had developed following crop failures or re-

ductions in grain harvest throughout much of Asia and in other portions of the world. Demand for other grain crops and for oilseed crops also has increased heavily.

Elimination of the required wheat set-aside acreage will free nearly 15 million acres for production of crops, including wheat, or forage. It is expected to add to market income earned by farmers.

No other 1973 Wheat Program provisions were changed except for elimination of the elimination of the required set-aside percentage, USDA reported, and program payments will not be affected in any way by the

reduction in set-aside acreage.

The decision to permit grazing on set-aside acreage was made in order to prevent or alleviate a shortage in the supply of livestock feed, the department explained. The grazing privilege will assist livestock producers in meeting increasing consumer demand for meat products by making additional forage available to supplement feed supplies for the production of livestock, the department added. Previously, grazing of set-aside acreage was not permitted during any of the five principal months of the normal growing season.
